

Desert Fiber Arts Equipment Lending Library

Equipment is available for DFA members to make use of on personal projects.

Red dot indicates equipment that must remain at this studio while being used.

Green dot indicates equipment that may be checked out for use at home. Equipment may be kept for up to two months unless another person has reserved it. Items with a waiting list may be checked out for two weeks. Notice will be sent via email if equipment needs to be returned early, (at time of checkout there was not a waiting list, but a reservation is registered during the two-month use.) See Equipment Loans section of the DFA Policies for more information.

- To check out equipment, fill out the library card and leave it in the inbox.
- To return equipment, bring all components back to DFA and place on the cart in the equipment room. Staff will then review the equipment for maintenance needs and return to correct location.
- If you notice damage or missing parts for a piece of equipment, please attach a note to the item with as much information as possible for staff to review.
- Smaller items can be found in the pocket storage unit hanging from the equipment room door and in the small wooden drawer under the counter.
